D'aquestes sis preguntes plantejades pel tribunal, l'aspirant haurà de triar-ne tres.

De estas seis preguntas planteadas por el tribunal, el aspirante tendrá que escoger tres de ellas.

The aim of this practical test is to be sure that the aspirant shows not only a good competence in the English Language, but also he/she is a good, innovative and communicative teacher.

1. What aspects should be taken into account when designing the English language transition plan between the primary and secondary stages?
2. In a primary year one class there is a student who has a cochlear implant due to an auditory impairment. How would you approach the issues the student has?
3. You are responsible for teaching English language at a primary school which is participating in an innovative and investigative programme. The programme will apply a gamified methodology with primary year three children. Design a didactic unit under the parameters of this methodology.
4. You are the English teacher of a 3rd grade class with a student diagnosed with autism spectrum disorder (ASD) and you are planning a 45' lesson using game stations to improve students' oral skills.
5. Prepare a session of interactive groups for the second cycle of primary and design five activities around the topic of "Descriptions". Define the organization of the spaces in the classroom and the voluntary people who will take part of it.
6. This year your school is going to receive a Language Assistant from an English speaking country. This person will work at your school for at least 9 months and you have been assigned as his/her tutor. What change would you make to your classes and programming to ensure optimal use of the language assistant ? What kind of tasks would you give that person bearing in mind he/she is going to spend at least an hour a week with each group
